

C9 (NAA)

Two worlds of indulgence in a compact format

With an impressive choice of hot brew and light brew, it conjures up a cupful of coffee aromas ranging from full-bodied to light and airy. With its Professional Aroma Grinder, three brewing processes and full-size brewing unit, the C9 can handle 17 specialty coffees. The selection on offer includes popular classics as well as the flat white, cortado and espresso macchiato trend specialties. For the ultimate ready-to-drink enjoyment with mild aromatic light brew specialties.

The innovative technologies in the C9 allow you to adjust the aroma, coffee and milk quantity as well as the temperature individually. The powder chute, which is easily activated via the menu, is ideal for decaffeinated indulgence. If equipped with an optional Wi-Fi Connect, this automatic coffee machine is compatible with J.O.E.®. The app simplifies user-specific settings and offers additional functions.

The design of the compact C9 is based on JURA's premium class. Wave-shaped structures characterize the water tank as well as the chrome-plated cup grille. The convex-concave front radiates elegance and class and harmoniously integrates the 2.8-inch color display into the overall design.

Features at a glance

- 17 specialty coffees – from pure coffee classics to Flat White, cortado and macchiato
- Hot Brew and Light Brew: Two worlds of indulgence thanks to three brewing processes and a full-size brewing unit
- Inspired by the timeless, top-of-the-range wave design
- Elegant 2.8" color display and user-friendly navigation for personalised coffee enjoyment

Technical overview

Specific advantages

Number of specialties	17
Light Extraction Process	■
Wi-Fi connection to home network	■

JURA coffee machine standards

Grinder	Professional Aroma Grinder (P.A.G.)
Powder chute for ground coffee	■
