

E8 Midnight Silver (NAD)

Loved, coveted, impressive

JURA's most successful automatic coffee machine model is now in its fifth generation with pioneering convenience and an impressive three worlds of indulgence. Classic Hot Brew, Light Brew and Sweet Foam create the incomparable coffee moments to be experienced with the E8.

To ensure exceptional versatility and indulgence, the E8 complies with all JURA standards and also incorporates the Light Extraction Process. It prepares the Hot Brew in the traditional way for an intense taste experience, and extracts the Light Brew at around 140°F for light, ready-to-drink enjoyment. Whether hot or light, both worlds of indulgence benefit from the Sweet Foam function, which provides additional taste experiences.

Another fascinating E8 feature is smart technology such as the Coffee Timer. This allows you to schedule your morning coffee via the J.O.E.® app and enjoy it freshly ground and prepared as soon as you get up.

The new generation of JURA automatic coffee machines comes with the Quality Assistant, designed for daily routines and a little extra sustainability. This ensures even better coffee quality and an even longer machine life.

The E8 oozes style and, thanks to a width of 10.6", makes an impressive impact even in smaller kitchens, both in terms of design and coffee experience.

Features at a glance

- The E8 combines three worlds of indulgence and creates 27 specialties
- Greater ease of use thanks to Coffee Timer and Quality Assistant
- Iconic design
- The P.A.G.2 grinder guarantees precise coffee results, consistent performance and a long service life
