

## J8 twin Double the performance, full flexibility

### Benefits at a glance

- Two P.A.G.3+ high-performance conical grinders for maximum flexibility
- 31 customizable specialties for unlimited enjoyment
- Simple and easy operation thanks to the Panorama Coffee Panel
- Harmonious design meets high performance in a compact form

A regular or decaf specialty coffee? Dark espresso roast or mild lungo coffee blend? The J8 twin from JURA comes equipped with two high-performance conical grinders. Combining two coffee machines in one, this is the first in the compact class to offer the best of both worlds. Two different bean varieties are used to create unique beverages, either pure or blended, at the touch of a button. Coffee pleasure every time – freshly ground, not capsuled. With the J8 twin, there is also the option to top off chosen beverages with delicately sweetened milk foam, serving up an entirely new world of taste. Made possible by Swiss engineering expertise which is behind state-of-the-art technology such as the P.A.G.3+ grinder and the Sweet Foam function.
